# ABSTRACT

[00057]       Systems and methods for adaptively compressing test data are disclosed. One such method comprises the steps of examining a test data file that includes a first plurality of data units corresponding to a first plurality of DUT pins and a second plurality of data units corresponding to a second plurality of DUT pins, compressing the first plurality of data units using a first compression technique, and compressing the second plurality of data units using a second compression technique.
